PROFILE

Results driven **Computer Science student** specializing in **AI-powered Full Stack Development**. Proficient in **React.js**, **Next.js**, **Node.js**, and **Python**, with hands-on experience in **Machine Learning**, **Deep Learning** (CNN, LSTM), and **Computer Vision**. Passionate about building intelligent, **production ready web applications** that solve real world problems through the power of **Artificial Intelligence**.

EDUCATION

Bachelor's in Computer Science 2022 – 2026 | Sargodha, Pakistan
University Of Sargodha

• View Academic Transcript  : <https://tinyurl.com/y32pub4c> 

ICS Physics – Intermediate Level 2021 – 2022 | Sargodha, Pakistan
Aspire College Sargodha

• View Degree Certificate :  <https://tinyurl.com/2p8xrn9t> 

Matriculation in Computer Science 2018 – 2020 | Sargodha, Pakistan
Govt High School 79 NB

• View Degree Certificate :  <https://tinyurl.com/4ua8act3> 

SKILLS

AI Full Stack Web Development

Full Stack Web Developer proficient in **HTML**, **CSS**, **JavaScript**, **TypeScript**, **React.js**, **Next.js**, **Node.js**, and **PostgreSQL**. Experienced in building responsive, scalable, and production-ready web applications with clean UI/UX. Leverage modern AI tools to accelerate development workflows and deliver high-quality solutions with greater speed and efficiency.

IT & System Operations:

Proficient in diagnosing and resolving **hardware**, **software**, and **network issues** with minimal downtime. Experienced in managing **IT operations**, **system configurations**, and **network setup**. Capable of providing **technical support** to end-users while ensuring **system stability**, **security**, and smooth day-to-day operations.

AI/ML Development

Completed a practical AI & Machine Learning course with hands-on Python experience. Skilled in supervised & unsupervised learning, deep learning (CNN, RNN, LSTM), and data analysis using **NumPy**, **Pandas**, **Matplotlib**, and **Seaborn**. Familiar with Computer Vision (**OpenCV**, **YOLO**), **NLP**, and **LLM-based** chatbot development using **LangChain** and **RAG**.

Office & Productivity

Tools:

Proficient in **Microsoft Office Suite** (Word, Excel, PowerPoint) with hands-on experience in **data entry**, **data cleaning**, and **report generation**. Skilled in building **Excel spreadsheets** with **automated formulas** and **pivot tables**. Capable of designing professional **business presentations** and generating structured reports to support **decision-making** and **performance tracking**.

PROJECTS

WEB DEVELOPMENT

- **E-Skool Management Software:** <https://shorturl.fm/Q40Ax>
Developed a responsive, stylish, and **animated frontend** with modern **UI/UX principles**, ensuring compatibility interactions.
- **Landing Page Project :** <https://landing-page-iota-tan-89.vercel.app/>
Created a modern, responsive landing page using **HTML5** and **CSS3**. Features include card-based content, clean **semantic** structure, and adaptive design for desktop and mobile.
- **CRUSH-POINT :** <https://crush-point.vercel.app/dashboard>
Designed and developed a responsive, stylish, and animated frontend featuring a **dashboard** and **sidebar** navigation. Integrated interactive tables for efficient data management, including **add**, **edit**, and **delete** functionality.

AI & ML

- **Deepfake Video Detection Using CNN-LSTM**
An AI-based project designed to detect deepfake videos using a hybrid **CNN-LSTM architecture**. The system utilizes **Faster R-CNN** for **face detection** and **feature extraction**, followed by **LSTM** to capture temporal patterns across video frames. This project demonstrates practical experience in computer vision, deep learning, video analysis, and model training for real-world media authenticity detection.
- **Repository Link:** https://github.com/tayyabp0g/Deepfake_Detection
- **Flower Classification using Neural Networks**
This project is a Digital Image Processing assignment focused on **classifying flowers** using a **4-layer Neural Network** in Python. The dataset consists of **multiple flower categories**, and the model is trained to recognize and **classify images** accurately.
- **Repository Link:** <https://github.com/tayyabp0g/Image-Classfication>

PROFESSIONAL EXPERIENCE

Search Engine Optimization:
Rank Divine Toheed Mall Sargodha
Detailoriented SEO Executive with expertise in **on-page/off-page** SEO, **keyword optimization**, and analytics. Focused on boosting website traffic and search visibility through data-driven strategies.

10/2024 – 05/2026
Sargodha,Pakistan

• **Certificate Link :** <https://www.pdffiller.com/s/YREIR6Bny>

Data Manager
SAMWF NGO 83 SB Lahore Road Sargodha
Managed and maintained data collection and monitoring systems using **KoboToolbox**, ensuring data accuracy through effective validation, cleaning, and reporting. Integrated KoboToolbox with **Microsoft Excel** for **real-time data synchronization**, while providing technical support to field teams and maintaining data security and integrity throughout operations.

07/2025 – 11/2025
Sargodha,Pakistan

• **Data Management | Excel Integration | Real-Time Data Monitoring**
• **View Experience Letter :** <https://www.pdffiller.com/s/P-pFpwEEUr>
